

Machine Packaging Capabilities: Milk Powder, Pesticide Powder, Detergent Powder, Chemical Powder, Rice, Sugar, Beans, Seeds, Salt, Tea, Dry Fruits, Pulses & any other granule or powder product.

Salient Features

- PLC control
- Special bag push conveyor
- Dual Feeder for coarse and fine weight.
- Special weighing system control with load cell
- Special variable speed conveyor to synchronise with bag closing machine
- Electro pneumatic bag spout (Bag Gripper)
- Electric Control panel with IP-54 protection standard.
- Main Feed controlled by pneumatic system.
- All parts in contact with product are made of Stainless steel.
- Appropriate feeding system for different products.

Technical Specifications	
Output Quantity	Output
5 kg – 20 kg	10-15 bags/min
10- 50 kg	06 -12 bags/min
Filler Accuracy	± 0.05 to 0.25 %
Pack / Quantity Range: Min. Bag size (W x L) approx. Max. Bag size (W x L) approx.	305 mm x 356 mm 533 mm x 890 mm
Packaging Material	Co-extruded 3 or 5 Layer PE Based or Laminated, Metalize, Aluminum Foil, Polypropylene woven bag, Jute bag, Cotton Bag, Paper Bag, China fusing, etc.
Electrical Requirement	
Input Supply	380 V AC, 50 Hz, 3 ph + N + G
Connected Load	2.5 KVA
Peak Power Rating	2.35 KW
Air Requirement	
Air Pressure	6 bar constant dry air
Air consumption	800ltr/min

Machine Dimensions along with conveyor (W x D x H) approx.	3550 mm x 1525 mm x 2970 mm (Depend on customized requirements.)
Weight	600 kgs (Net)

Pouch Type

Machine Capable of packing all types of Solid Pouches

Add-on Parts

The Sewing Machine works hand in hand with our bulk machines where we have installed numerous such machines for closing of different bag types. Our sewing machines are all manufactured by reputable original equipment manufacturers (OEM) which are synchronized and integrated with our (Solidio-BK) bulk machine. The sewing machine manufactured are all durable and are being used to close a variety of bag types such as polyethelene (PE), woven and aminated woven polypropylene (PP). We offer our clients a range of sewing machines such as handheld portable bag closers to heavy production synchronous sewing systems.

Optional Accessories

- Customized pack Size
- Automatic Bag Counting System
- Long Conveyor
- Extra mouth collar for different size bags
- Special pneumatic sealer with adjustable
- Heavy duty Industrial Sewing machine with adjustable ahead

DISCLAIMER: The information on this flyer is accurate to the best of Prepac's knowledge. All our machines can be customized as per customers' requirements and specifications. Machine cost may vary depending on the scope of customization required. The end-user must determine the suitability of the material for a particular application.
